

COSMOS THEATRE

COSMOS THEATRE

A UNIQUE SYNTHESIS OF ART, TECHNOLOGY AND ENTERTAINMENT

ART, TECHNOLOGY & ENTERTAINMENT

Cosmos Theatre is a groundbreaking venture in Antalya, Türkiye, redefining the future of the MICE industry through its innovative fusion of art and entertainment. As a next-generation dinner theatre, Cosmos Theatre is more than just a venue—it's an immersive experience that captivates both locals and visitors alike.

By seamlessly merging spectacular performances with world-class hospitality, Cosmos Theatre offers an experience that transcends traditional entertainment, making it the ideal setting for corporate events, product launches, and high-profile meetings.

Whether hosting a conference in a creativity-inspiring environment or rewarding employees with an unforgettable incentive trip, Cosmos Theatre provides a versatile backdrop that elevates any MICE event into a memorable spectacle.

With state-of-the-art technology and a commitment to excellence, Cosmos Theatre is redefining the boundaries of corporate events and entertainment, delivering an unparalleled experience in the heart of Antalya.

A woman with long dark hair, wearing a white halter-neck dress with long sheer sleeves and a wide white belt, is performing on a stage. She is standing on a red velvet swing seat, which is part of a large, ornate metal swing set structure. She has one leg raised and is holding onto the chains of the swing. To her right is a large, multi-tiered chandelier with several lit, pleated lampshades and hanging crystal strands. The background is a dark blue wall with a pattern of glowing green and yellow circular lights. The text "THE SHOWS" is overlaid in white on a dark horizontal band across the middle of the image.

With state-of-the-art technology and a commitment to excellence, Cosmos Theatre is redefining the boundaries of corporate events and entertainment, delivering an unparalleled experience in the heart of Antalya.

A person wearing a white tuxedo jacket, a white shirt, and a black bow tie. They are also wearing a gold, textured mask that covers their face, featuring a single large, circular, metallic eye on the right side. The person is standing in a dimly lit room with red ambient lighting. In the background, there are other people, some of whom are holding drinks, and some neon lights are visible. The overall atmosphere is that of a nightclub or a formal event.

THE SIN

SPECTACULAR NIGHT CLUB EXPERIENCE

Step beyond the ordinary and enter The SIN—Antalya's most electrifying nightlife experience. Set within the striking ambiance of Cosmos Theatre, The SIN redefines entertainment with world-renowned DJs, sensational live performances, and an atmosphere that captivates from the moment you arrive.

Indulge in handcrafted cocktails and premium spirits expertly prepared by our seasoned mixologists, adding a touch of sophistication to your night. With a visionary approach, cutting-edge 3D technology, and impeccable service, The SIN delivers a nightlife experience unlike any other.

The venue offers an unforgettable night of music, dance and spectacle every Wednesday and Saturday from 22:00 to 02:00. Reservations are required. The SIN welcomes only guests aged 18 and above.

TECHNOLOGY

Cosmos Theatre is equipped with state-of-the-art sound, light, image, and stage systems that elevate any event to the next level.

270° MAPPING

Cosmos Theatre possesses a 1200 square meter mapping area created using silver-colored acoustic fabric (PONGS) that maintains sound quality while keeping speakers out of sight and enhancing visual quality. The 270° mapping system, facilitated by 32 projectors, allows the space to transform into any desired arrangement.

TECHNICAL INFORMATION

Cosmos Theatre is a new-generation, multi-purpose show center designed with the latest technology while preserving the traditional theatre aesthetic. This state-of-the-art venue offers a visual feast with its striking lighting and sound systems.

Its flexible infrastructure accommodates a variety of visual performances with video mapping across a 1,500m² surface, utilizing 32 units of 20,000 ANSI projectors and a 17x7m Gerriets Vision Gauzel Parsifal Ghost screen. Additionally, the stage features a 150m², 2.5mm LED screen for high-resolution visuals.

At Cosmos Theatre, top-tier sound quality is ensured for any event, powered by d&b audiotechnik V-Series speakers, optimized for acoustic performance. This advanced sound system supports both standard stereo and 7+2 surround

configurations. To maintain a clean aesthetic for mapping projections, all sound and video projection systems are discreetly integrated within the walls.

The lighting system follows the same principle of seamless integration, designed for multi-purpose use with industry-standard brands such as MA Lighting and Robe. The automation-rigging truss motors and movable decoration systems allow for agile design adaptations, making the venue flexible for various applications.

To elevate performances, Cosmos Theatre is equipped with mechanical stage effects, including: three automated stage extensions (two measuring 2.5x7m and one 3x7m) at the front of the stage to expand the podium when needed, a 2x4m WL and a 1m-high lift. There are also ten 18m décor bars, digitally controlled via an

automation system. In addition, there are aerial performance winches positioned above both the stage and audience area.

The general lighting system consists entirely of RGBA LED lights, each individually controllable via automation. Designed for seamless integration, this system can be adapted for various performances and events.

To ensure uninterrupted operations, Cosmos Theatre features a 150 kW A.P.C.-brand UPS system and two 900 kW generators, preventing power disruptions during events.

For event promotions, digital billboards displaying show and event banners are positioned on the exterior walls of Cosmos Theatre, featuring five 24m² LED screens for maximum visibility.

OUTDOOR ADVERTISING AND ANNOUNCEMENT CAPABILITIES

Cosmos Theatre's outdoor advertising and announcement capabilities are notably enhanced by the strategic placement of five LED screens around the venue's exterior. These screens offer an excellent platform for event announcements, sponsor logos, or live broadcast content, providing a seamless and uninterrupted display of high-quality visuals. Thanks to the advanced technology of these LED screens, Cosmos Theatre extends its offering beyond the confines of indoor facilities, presenting event organizers and participants with a broad spectrum of interaction and promotion possibilities that encompass both indoor and outdoor spaces. This feature not only enhances the visibility of events and sponsors but also enriches the attendee experience, making it a versatile tool for a wide range of MICE activities.

FOR B2B EVENT REQUESTS

The venue has private VIP lounges, dining areas, bar seating, balcony level lounges with small tables, and exclusive lounges with dividing curtains.

Contemporary design of the building combines the simplicity and elegance. This architectural project lays special emphasis on the optimum stage viewing angles, comfortable seating areas, arrangements to create the unique ambiance of the venue, as well as floor and facade cladding elements based on acoustic engineering measurements to improve sound quality.

Take advantage of the venue's exceptional setting, theatrical scenery and state-of-the-art equipment to make your events unique and memorable. Whether it's a birthday, anniversary, proposal or any other ceremony, your special day will leave a lasting impression on your guests.

The giant outdoor led screens on the facade of the venue with special visual designs make you immerse in the show at first sight.
